

Group work Exercise
Conclusions and Recommendations for Future Action

1. Make an analysis and critical evaluation of the factors that have greatly influenced labour administration and labour inspection in your countries and sub-region over the past five years.
2. What lessons can you draw from this past experience?
3. What are the main challenges confronting the world of work in relation to labour administration and labour inspection in your countries and sub-region.
4. Based on the responses to questions 1 and 2 above, develop a list of draft recommendations, which reflects the concerns arising from this workshop and which if implemented will enable your sub-regional trade union organisation and/or national trade union centres contribute to overcoming the identified challenges.

Each group should elect a representative to take their draft recommendations to a drafting Committee. The Committee will try and produce composite conclusions and recommendations and present them to the plenary sessions for approval.
